New GED tests are coming in 2012

If you have taken several GED tests but have not completed your GED, you need to know that scores earned on current or previous GED tests will not be combined with those earned on the new 2012 Series of the GED Tests.

By December 31, 2011, you must have taken and earned passing scores on all five current content area tests [Language Arts, Reading; Language Arts, Writing; Social Studies; Science; and Mathematics], or you will need to start over and take the entire 2012 Series test battery.

We can help you finish before 2012. Visit the Web site below for more information.
