Web Development and Design

Check out Iowa Lakes' new Web Development and Design Program. It may be just what you're looking for!

Web Development and Design trains students in both the creative and technical aspects of the environment. Creative skills are used in developing informative, easy-to-navigate web site designs using Macromedia Dreamweaver, Flash and Adobe Photoshop software. Technical training is provided in basic code writing using HTML and JavaScript.

For information visit www.iowalakes.edu

Faculty Advisors

Faculty advisors are assigned to every student registered at Iowa Lakes. Your advisor is an instructor in your area of interest. Each advisor has current information to help you with class registration and selection, career counseling and transfer information.

Students with disabilities needing accommodations...

Assistance for disabled students can include counseling, tutoring, lab assistance, test readers, taped materials, small group instruction, and other specific aids. If you anticipate problems with college studies you should contact the Success Center at the campus where you will take classes. Individuals with a disability that requires accommodations to participate fully in academic programs should contact Linda Helmerts at 1-800-242-5106 ext. 364.
