Wind Turbine - Focus on construction, maintenance, repair and operation.
Call Mike Schmidt - 1-712-362-8376 or Al Zeitz - 1-712-362-8374 for information.

Biomass Energy Processing
Employment in facilities processing corn and/or soybeans into primary products, such as ethanol and biodiesel, and usable co-products.
Call David Peterson - 1-712-852-5295

Sustainable Energy Resources Management - Prepares you for your future career in the management of sustainable and renewable energy resources.
Call Gary Phillips - 1-712-362-7978

Environmental Studies - Fisheries and wildlife biology, forestry, soil conservation and park management. Gain knowledge in monitoring, measuring, analyzing and reporting the presence of various environmental pollutants.
Call Gary Phillips - 1-712-362-7978

**Web Development
and Design**
712-362-7976

Web Development and Design trains students in both the creative and technical aspects of the Web environment. Creative skills are used in developing informative, easy-to-navigate Web site designs using Macromedia Dreamweaver, Flash and Adobe Photoshop software. Technical training is provided in basic code writing using HTML and JavaScript.

What is COMPUTER FORENSICS?

Call Ken Whitener 712-362-7952

In today's digital age the crime scene has a new component: the computer. In many cases, evidence gathered from computers and computer networks has been the key to criminal investigations. Computer forensics involves the identification, preservation, extraction, documentation and interpretation of this digital evidence. In pursuit of an A.S. degree in Criminal Justice, students will receive training in the latest technology and methodology of the modern day cyber sleuth. Topics of forensic investigations covered in this program will include military, law enforcement and business. Students will apply concepts presented in the classroom to hands-on exercises utilizing industry standard techniques and software.
