5. Remarks and allegations by a speaker concerning the character or motives of a College employee shall be out of order.

6. The Correspondence item of the agenda is designed for written comments from the public, not discussion.

BOARD POLICY

Closed Sessions

In general, all meetings of the Board shall be conducted in open public sessions. Closed sessions may be held, in accordance with the Iowa Open Meetings law, as either “exceptions” or “exemptions” to the law.

1. “Exceptions” to the Iowa Open Meetings Law.
   This type of closed session occurs during an open meeting. A special motion stating the reason for the closed meeting must be made and seconded, followed by a two-thirds affirmative roll call vote on the total membership of the Board or of all members present. The vote of each member on the question of holding the closed session and the reason for holding the closed session by reference to a specific exception under this provision of the law shall be announced publicly at the open session and entered in the minutes.

   The Board shall not discuss any business during a closed session which does not directly relate to the specific reason announced as justification for the closed session. All sessions closed under this provision shall be tape recorded and have detailed minutes kept. The tape recordings shall be kept for one year from the date of the meeting. Real estate-related minutes and tapes must be released after the transaction is completed.

The Board may enter into this type of closed session for the following reasons:

a. To review or discuss records which are required or authorized by state or federal law to be kept confidential or to be kept confidential as a condition for the Board’s possession or continued receipt of federal funds.

b. To discuss strategy with counsel in matters that are presently in litigation or where litigation is imminent and where disclosure would be likely to prejudice or disadvantage the position of the Board in that litigation.

c. To discuss whether to conduct a hearing or to conduct a hearing to suspend or expel a student, unless an open session is requested by the student or a parent or guardian of the student if the student is a minor.

d. To discuss the decision to be rendered in a contested case conducted according to the provisions of Chapter 17A of the Code of Iowa.

e. To avoid disclosure of specific law enforcement matters, such as allowable tolerances or criteria of the selection, prosecution or settlement of cases, which if disclosed would facilitate disregard of requirements imposed by law.

f. To avoid disclosure of specific law enforcement matters, such as current or proposed investigations, inspection or auditing techniques or schedules, which if disclosed would enable law violators to avoid detection.

g. To evaluate the professional competency of an individual whose appointment, hiring, performance or discharge is being considered when necessary to

prevent needless and irreparable injury to that individual’s reputation and that individual requests a closed session.

h. To discuss the purchase of particular real estate only where premature disclosure could reasonably be expected to increase the price the College would have to pay for that property.

2. “Exemptions” to the Iowa Open Meetings Law
This type of closed session is exempt from the Iowa Open Meetings law. It may be held separate from an open public meeting and may be held without public notice. The Board may enter into this type of closed session to discuss negotiations strategy regarding a certified bargaining unit, to discuss negotiations strategy for groups of employees not included in a certified bargaining unit, and to conduct a private hearing relating to the recommended termination of a teacher’s contract and the teacher requested said private hearing. No record need be maintained of negotiation strategy sessions. The private hearing in a teacher’s contract termination shall be recorded by a court reporter.

It is the policy of Iowa Lakes Community College, in keeping with efforts to establish an environment in which the dignity and worth of all members of the collegewide community are respected, that the discrimination or harassment of students, faculty and/or staff at any of its campuses, facilities, and/or activities will not be tolerated. This includes sexual harassment, which includes sexual assault, dating violence, domestic violence, and stalking as defined herein, as well as retaliation against an individual for exercising rights under this Policy and Procedures.

It is the policy of Iowa Lakes Community College to provide education to help prevent, facilitate the reporting of, and provide information on counseling concerning sexual harassment. This policy sets forth the College’s prohibition on sexual harassment, and the applicable procedures for resolving complainant or report of sexual harassment under Title IX, the Clery Act, and other applicable law.

The College’s scope under Title IX is limited to locations, events, or circumstances over which it substantially controls both the respondent accused of violating this policy and the context in which the alleged harassment occurs, as well as any building owned or controlled by a student organization that is officially recognized by the College, such as a fraternity or sorority. The College’s scope under Title IX is also limited to conduct against a person that occurs in the United States.

Any person may file a complaint alleging sexual harassment against a student or employee of the College. If a report or complaint falls under the College’s scope under Title IX, the College will utilize this Policy and the related procedures to respond to claims of sexual harassment and will not proceed under any other College policy or procedure if doing so would interfere with any right or privilege provided to a party under Title IX. If the College determines that a report or complaint does not fall under the College’s scope under Title IX, the College may still take action for such alleged conduct, as herein provided and/or consistent with applicable law and policy (such as the Discriminatory Harassment Policy or Student Code of Conduct) and based on the nature of the alleged conduct. The parties will be notified of this decision.

GENERAL

A person who has been admitted to an Iowa community college shall be classified as a resident or as a non-resident for admission, tuition, and fee purposes. A person classified as a resident shall pay resident tuition costs. A person classified as a non-resident shall pay a non-resident tuition cost. Tuition rates are established by a community college’s board of trustees.

A. Resident Tuition: Tuition for residents may not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time student. For students of high school age enrolled in a course through a contractual agreement with a school district, the limit on resident tuition shall not apply and the amount of tuition shall be determined by the board of trustees of the community college with the consent of the school board.

B. Non-Resident Tuition: Tuition for non-residents shall not be less than the marginal cost of instruction of a student attending the college.

   1. A separate non-resident tuition rate for international students is permissible, provided the rate is reasonable and reflects the cost of appropriate services.
   2. A lower tuition for non-residents is permitted under a reciprocal tuition agreement between a community college and an educational institution in another state, if the agreement is approved by the director of the Iowa Department of Education.
   3. Other non-resident tuition rates may be established for specific purposes provided the tuition is greater than the resident tuition rate and not less than the marginal cost of instruction and the arrangement is approved by the director of the Iowa Department of Education.

C. Online Consortia: A separate tuition rate for residents and non-residents is permitted under a consortium agreement for distance education coursework between Iowa community colleges, if the agreement is approved by the director of the Iowa Department of Education and tuition is not less than the marginal cost of instruction for non-resident students and does not exceed the lowest tuition rate charged by an institution under the state board of regents for resident students. Additionally, tuition shall not be less than the lowest resident rate or higher than the highest non-resident rate of institutions within the consortium.

D. Non-Credit Courses: Persons who register for non-credit continuing education courses shall be charged course fees determined by course costs and market demand. A community college shall inform all students about residency status determination, the appeal process, and tuition policies. Information shall be included in appropriate publications such as the college’s catalog, registration materials,
Determination of Residency Status

In determining a community college resident or non-resident classification, the primary determination is the reason a person is in the state of Iowa. The second determination will be the length of time a person has resided in Iowa. If a person is in the state primarily for educational purposes, that person will be considered a non-resident. The burden of establishing the reason a person is in Iowa for other than educational purposes rests with the student.

A. The registrar or official designated community college office may require written documents, affidavits, or other related evidence deemed necessary to determine why a student is in Iowa. The burden of proof is upon the student.

A student will be required to file at least two documents to determine his/her residency status. No two documents may come from the same source. The following are examples of acceptable documentation.

1. Written and notarized documentation from an employer that the student is employed in Iowa or a signed and notarized statement from the student describing employment and sources of support.
2. Iowa state income tax return.
3. An Iowa driver’s license.
4. An Iowa vehicle registration card.
5. An Iowa voter registration card.
6. Proof of Iowa Homestead credit on property taxes.

In all events to be determined a resident of Iowa, the individual must document residing in the state of Iowa for at least 90 days prior to the beginning of the term for which he/she is enrolling.

B. If a student gives misleading or incorrect information for the purpose of evading payment of non-resident fees, he or she must pay the non-resident fees for each term the student was not officially classified as a non-resident.

C. These regulations shall be administered by the registrar or office staff designated by the community college. Resident and non-resident tuition rates shall be printed and available in the catalog or another major college publication.
RESIDENCY OF MINOR STUDENTS

The domicile of a minor shall follow that of the parent with whom the minor resides except where emancipation of said minor can be proven. The word “parent” herein used shall include legal guardian or others in cases where the lawful custody of a minor has been awarded to persons other than actual parents.

A minor living with a resident of Iowa who is legally responsible for the minor shall be granted resident status if the minor has lived with the Iowa resident for at least 90 days immediately prior to enrollment.

The residency status of an emancipated minor shall be based upon the same qualifications established for a person having attained majority.

RESIDENCY OF STUDENTS WHO ARE NOT CITIZENS OF THE UNITED STATES

A. A person who is a refugee or who is granted asylum by an appropriate agency of the United States must provide proof of certification of refugee or asylum grantee status. A person may be accorded resident status for admission and tuition purposes when the person comes directly, or within a reasonable time, to the state of Iowa from a refugee facility or port of debarkation and has not established domicile in another state.

B. A person, who has immigrant status, and his or her spouse or dependents, may establish Iowa residency in the same manner as a United States citizen.

C. A person who has non-immigrant status and who holds a non-student visa, and his or her spouse or dependents, may establish residency in the same manner as a United States citizen. An alien who has non-immigrant status and whose primary purpose for being in Iowa is educational is classified as non-resident. A "student visa" is prima facie evidence of non-residency (i.e., in a rare case, a student holding the visa could overcome the presumption of non-residency).

D. A person who is a resident of an Iowa sister state may be classified as a resident or non-resident, per rules adopted by the college’s board of directors.
RESIDENCY OF FEDERAL PERSONNEL AND DEPENDENTS

A person, or his/her spouse or dependent child, who has moved into the state of Iowa as the result of military or civil orders from the federal government, and the minor children of such persons, are entitled to immediate Iowa residency status.

VETERAN’S EXEMPTION

A veteran of military service or National Guard, or his/her spouse or dependent child shall be classified as a resident if the veteran is domiciled in Iowa and one of the following conditions is met:

1. The veteran has separated from a U.S. military force with an honorable discharge or a general discharge, is eligible for benefits, or has exhausted benefits, under the federal Post-9/11 Veterans Educational Assistance Act of 2008 or any other federal authorizing veteran educational benefits program.
2. The individual is an active duty military person, or activated or temporarily mobilized National Guard member.

To be eligible for the exemption, a dependent child must be claimed as a dependent on an eligible veteran’s internal revenue service tax filing for the previous year.

RECLASSIFICATION OF RESIDENCY STATUS

It is the responsibility of a student to request a reclassification of residency status. If a student is reclassified as a resident for tuition purposes, such classification shall be effective beginning with the next term for which the student enrolls. In no case shall reclassification to residency status be made retroactive for tuition and fee purposes, even though the student could have previously qualified for residency status had the student applied.

APPEAL

The decision on the residency status of a student for admission, tuition, and fee purposes may be appealed to the Iowa Lakes Community College Academic Appeals Committee. The findings of the review committee may be appealed to the community college board, whose decision shall be a final administrative decision.
EFFECTIVE DATE

This policy is effective beginning with the 2014-2015 academic year.

- Has the effect of substantially interfering with the person’s school or work performance; or

Series 405.2: Sexual Harassment / Sexual Violence Policy

It is the policy of Iowa Lakes Community College, in keeping with efforts to establish an environment in which the dignity and worth of all members of the collegewide community are respected, that the discrimination or harassment of students, faculty and/or staff at any of its campuses, facilities, and/or activities will not be tolerated. This includes sexual harassment, which includes sexual assault, dating violence, domestic violence, and stalking as defined herein, as well as retaliation against an individual for exercising rights under this Policy and Procedures.

It is the policy of Iowa Lakes Community College to provide education to help prevent, facilitate the reporting of, and provide information on counseling concerning sexual harassment. This policy sets forth the College’s prohibition on sexual harassment, and the applicable procedures for resolving complainant or report of sexual harassment under Title IX, the Clery Act, and other applicable law.

The College’s scope under Title IX is limited to locations, events, or circumstances over which it substantially controls both the respondent accused of violating this policy and the context in which the alleged harassment occurs, as well as any building owned or controlled by a student organization that is officially recognized by the College, such as a fraternity or sorority. Institutions of higher education are conducted for the common good and not to further the interest of either the individual teacher or the institution as a whole. The common good depends upon the free search for truth and its free exposition. Academic freedom is essential to these purposes and applies to both teaching and research. Freedom in research is fundamental to the advancement of truth. Academic freedom in its teaching aspect is fundamental for the protection of the rights of the teacher in teaching and of the student to freedom in learning. It carries with it duties correlative with rights.

Faculty are entitled to freedom in the classroom in discussing his or her subject, but he or she should be careful not to introduce into his or her teaching controversial matter which as no relation to one’s subject.

Faculty are citizens, members of a learned profession, and respected employees of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and shall indicate that they are not speaking for the institution.

Faculty members occupy a unique position of influence and respect in the eyes of students, college employees and others and, therefore, are obligated to maintain professionalism at all times while conducting College business.
