The human eye blinks an average of 4,200,000 times every year (I bet you just blinked, didn’t you).

The Main Library at Indiana University sinks over an inch every year because when it was built engineers failed to take into account the weight of all the books that would occupy the building.

There are more living organisms on the skin of a single human being than there are human beings on the surface of the earth.

90% of Canada’s 31,000,000 citizens live within 100 miles of the U.S. border.

Astronauts cannot burp in space. There is no gravity to separate liquid from gas in their stomachs. (I would like to dedicate this fact to Emily J)

Dolphins sleep with one eye open.

Albert Einstein never knew how to drive a car.

All polar bears are left handed.

Thaddeus was one of the 12 disciples listed in the books of Matthew and Mark, but not in Luke or Acts. (Mike and Jill can tell you all about this if you’d like more info).

Welcome back to Iowa Lakes. We hope you had an amazing Christmas break, and are excited to be back at college. If you enjoyed the Fall, then you’re gonna love the Spring. Take a look inside to see what we’ve got going on this semester...
